## **EXAMPLE PLANS**

The drawing shows the plans required for a typical two-storey rear extension. Note that the plan has been photographically reduced. The notes describe some of the important points.

- 1. Mark up the drawings to show what building materials are proposed.
- 2. Include all elevations of your extension.
- Use dotted or broken lines to show the position of existing buildings to be demolished.
- 4. Trees to be retained or felled should be shown.
- 5. Make sure the position of adjacent properties is up to date and accurate.
- 6. Highlight new work, using colour or hatching.
- 7. Show property boundaries.
- 8. Outline your site in red.
- 9. Show the north point on the plan.
- 10. Each plan must be drawn to a metric scale which should be stated. Any dimensions should be included on the plans in metres.
- 11. State the grid reference (rural areas only)
